PORTFOLIO

Content, Design & Everything In Between

I'm Lana Kheder, a digital marketing and content specialist who has never quite fitted into just one box. I specialise in SEO, copywriting and content design, but my work often goes beyond that. From email campaigns and brand identities to packaging and interactive web content, I enjoy bringing together creativity, research and strategy to create work that not only looks good but also serves a purpose. Whether I'm writing for people, designing for brands or optimising content for Google and AI search, I focus on making things clear, engaging and easy to discover.

APEX RECOVERY

Interactive Web Components

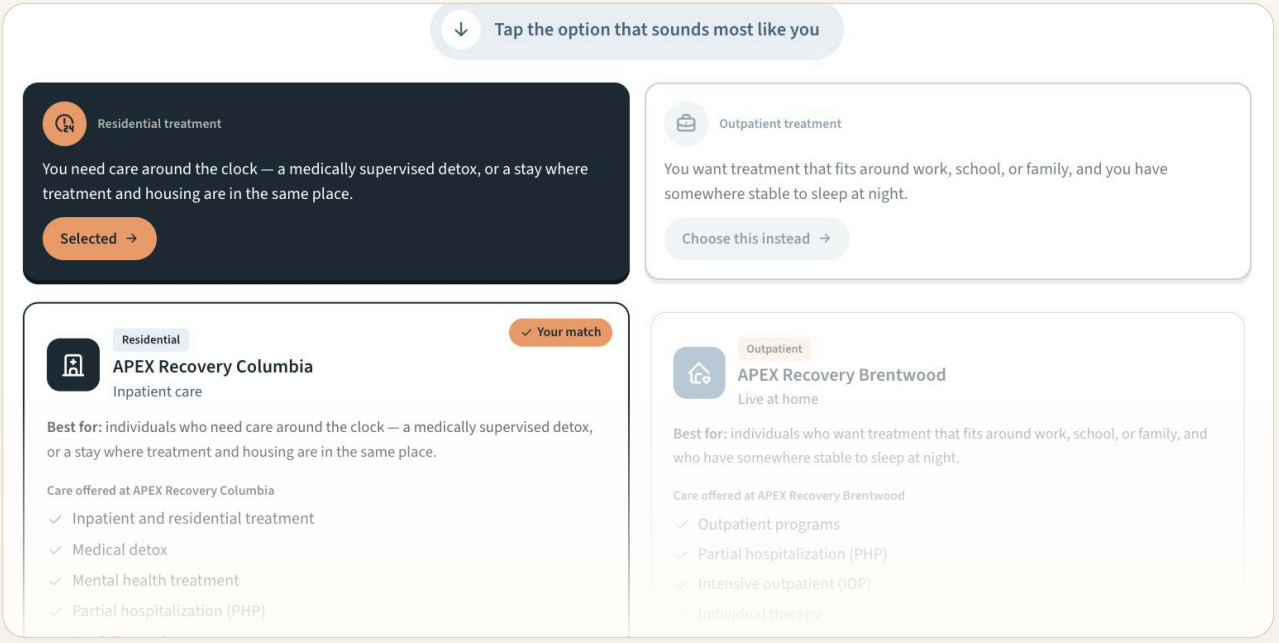

I designed and built more than 20 custom HTML components for APEX Recovery's website, using Claude to help generate and refine the code. The aim was to turn complex treatment information into clear layouts that help visitors compare their options and find what applies to them. Within two weeks of launch, AI search citations rose 49% and brand mentions in AI answers rose 46%.
